

D.A. Cook

D.A. Cook is long-established building and restoration company based in Winchcombe, Gloucestershire serving the private and commercial sector including Grade I & II listed buildings.

D.A. Cook has been involved in several high profile restoration projects since it was established in 1965, including the refurbishment of a residence in College Yard, Worcester - a well known building which appears on the back of the UK £20 note.

Challenge

In November 2009, D.A. Cook became involved with a project at Holy Trinity Church in Stratford-upon-Avon, which required the restoration of the stained-glass windows, porch lead works & timber and lead replacement to the Chancel roofs. After a meticulous 25 - week project the Church was restored to its full glory but the restoration works had inevitably created a substantial amount of debris and dust.

The Solution

As their preferred cleaning provider, D.A. Cook had no hesitation in approaching All Clean for the post-project clean-up.

All Clean provided a range of specialist equipment and fully trained personnel to operate 'cherry pickers' (pictured) to reach the roof interiors and upper wall areas.

Special detergents were used to clean delicate areas such as the stained-glass windows, flooring and wood carvings.

All dust was removed from crevices and pughs using non-abrasive cleaning materials by specially trained staff.

The Benefits

The cleaning operation put the finishing touches to a complete transformation of the interior and within a few days Holy Trinity was spotlessly clean, ready to welcome back the community.

Commenting on the cleaning operation Chris Hart, D. A .Cook Project Manager said:

"All Clean provided a thorough service which ensured all areas of Holy Trinity were cleared of debris and cleaned to a very high standard. They provided all specialist elevation equipment complete with trained personnel which gave us peace of mind with regards health and safety. The team were professional and efficient enabling us to re-open the Church soon after the restoration was complete"
